

## [Sewage Map](#)

The Rivers Trust are conservation experts with a wealth of data and expertise at our fingertips. We work with our member Trusts to make our shared...

[theriverstrust.org](http://theriverstrust.org)

The rivers trust has updated their map of sewage data from the national EDM data (Event Duration Monitoring) Yorkshire Water's contribution is included in this data set, and you can access the data by zooming in and clicking to find the data at individual sites.

While we know that sewage isn't the only source of pollution, it is a major one, it is an offence against our rivers, and it was the original stimulus for citizens in the Nidd Catchment Area to get together and form the Nidd Action group

Our local rivers trust organisation is the Yorkshire Dales Rivers Trust (YDRT) [Home - Yorkshire Dales Rivers Trust \(ydrtr.org.uk\)](http://ydrtr.org.uk)

NAG works closely with them and with local universities (Leeds, York and others) as well as local citizens and citizen groups concerned about the Nidd and its tributaries.
